

HERMES
LANDSCAPING

Making Our World More Beautiful Since 1965

Garmin International Olathe, KS

INTEGRITY.

STEWARDSHIP.

EXCELLENCE.

VALUE.

COMMITMENT.

The Garmin International Courtyard project was conceived to create a special outdoor place for Garmin employees to relax and enjoy the beauty of a natural setting without having to leave the Garmin campus. Garmin asked our company to provide a landscape that would provide a unique outdoor experience for employees and also pay tribute to the different backgrounds of the two founders, Min Kao and Garry Burrell. As employees make their way through the landscape, they experience the oriental gardens of Taiwan and the babbling brooks of Kansas' Flint Hills before emerging into a streamlined, modern landscape representing the future of Garmin.
