

HERMES
LANDSCAPING

Making Our World More Beautiful Since 1965

Santa Marta Olathe, KS

INTEGRITY.

STEWARDSHIP.

EXCELLENCE.

VALUE.

COMMITMENT.

This landscape installation project at a large retirement community transitioned seamlessly into an ongoing maintenance contract. The scale of the project required phasing, while the Hermes maintenance division took over to keep new plants and turf healthy. The property includes over one million square feet of turf and 70,000 square feet of perennial and flower beds. Maintenance involves all areas of this extensive property, including main building common areas as well as all the surrounding private villas, which are individual assisted living residences.
